Our Environmental Management Statement

SINUS Electronic GmbH and all of its employees are aware that preserving and protecting our environment and hence our livelihoods is an important goal of our business. We are continuously improving and monitoring our processes to ensure reduced environmental impact and to optimise the use of our resources.

Whilst we do not have a validated and certified environmental management system, we are certified to ISO 9001: 2015 and adhere to the Environmental Protection Standard DIN EN ISO 14001. We ensure all our suppliers have, at a minimum, implemented the same environmental standards as ourselves.

SINUS Electronic GmbH strictly complies with all Environmental Protection Laws and Regulations.

SINUS Electronic GmbH
